Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

Dear whoever

I think I pay enough for people like you to take an extra vacation every year.

ALL cell phone rates are based on usage so what are you doing ???? I dont care if it is a dollar all most every one i know has a cell phone and we get hit with enough charges for work and personal use to satifiy you.

I would love to hear YOUR reasons behind this because I sure once you get the \$1 this year you will want \$2 next year

Sincerely

Valerie Anderson-Tate
